The Contract Based Education School (CBE) is committed to engaging each student in personalized, rigorous learning, empowering him/her to challenge and transform his/her life story in pursuit of a caring and just world. This is our mission, our reason for opening our doors every morning to a wonderfully diverse student body. Students at CBE, on average, attend school 2-3 days a week for 2-3 hours a day, and take 2-3 courses at a time during each of our 8 week teaching/learning blocks. Students are expected to earn 5 credits a year, keeping them on track to graduate in four years. Students work both individually and in small groups with our dynamic, caring certified Faculty. CBE is the second largest alternative high school in Washington and has served students with unique academic and social needs for 20 years.
