

Dear West Valley Families,

As we continue through the winter months, we're crossing our fingers that we will not be faced with any more extraordinary snowfalls. Even though more snow remains a possibility, we have addressed the issue of making up the five snow days we have already experienced.

As you know, we will be making up two of our snow days on what had been designated as district release days, February 13 and May 22. We discussed the remaining three snow days with the Board of Directors at the regularly scheduled meeting last night, and the Board supported the proposal to make up those remaining days on June 15, 16, and 17. All high school graduation dates will remain as scheduled.

If your family has already made plans (such as travel arrangements, etc.) for those dates that cannot be changed, student absences will be excused so long as the school is notified in advance. Please be sure to contact your building principal to make arrangements for your student assignments and tests that may be scheduled for those days.

Sincerely,

Dr. Polly Crowley
Superintendent
